DLN
9/14/04

SUBJECT: LTP - Wetlands Reserve Program Warranty –
Easement Deeds

SEP - 9 2004
DATE:

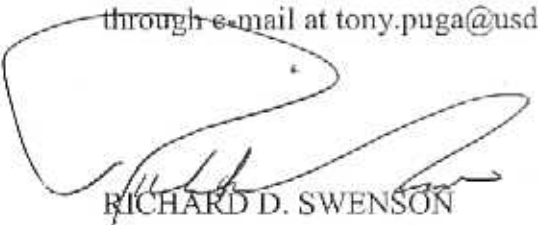

TO: All State Conservationists

FILE CODE: 300-20

The Warranty Easement Deeds, forms CCC-1255 and CCC-1255A, currently available through the Programs section of the NRCS web home page are not the correct versions. These versions incorrectly show an expiration date as "6-30-03." No expiration should be shown on these forms. This erroneous date can cause legal interpretation problems when we are attempting to record and enforce these easements. The correct version will be posted in the very near future.

The versions of the forms accessed electronically through the Wetlands Reserve Program Manual (440-V-CPM) are correct. Clean copies of forms CCC-1255 and CCC-1255A are attached for your use and distribution to local offices. An electronic version is also being sent to the Wetlands Reserve Program contact in your State.

If additional information is needed, contact Tony Puga by telephone at (202) 720-0679 or through e-mail at tony.puga@usda.gov.

RICHARD D. SWENSON
Director
Easement Programs Division
